LITTLE ROACHES

## Nooit meer naar school School, never again

### Synopsis

It seems like a wonderful dream: never having to go to school again. But what if that really happens? That you can stay at home all day. Without an alarm clock, without haste. But also: without friends and with a lot of boring chores at home.

Like no other, Floortje Schoevaart (she writes for Sesame Street, among others) knows how to capture the desire for schoolless days. Perfect for anyone who is happy that the schools have started again and for anyone who has forgotten in a while how badly they missed school again.

With wonderfully elegant, cheerful illustrations by starting illustrator Roozeboos.
