

Table of content building huts

Your own cabin is wonderful. Your own place, all yours, where you are lord and master, a home-made house. In fact, building a cabin is even more fun than having one. You will not be the first to break down the hut and build a new one.

Part 1: Carpentry, sawing, knotting

Safety

Tools

How can you measure well?

How can you cut well?

How can you do good carpentry?

How do you get cheap boards?

Laying knots
