

The ultimate easy screen printing book

This book teaches you all you need to know about easy screen printing. And with easy we mean really easy.

So get ready for:

- 200+ pages of screen printing fun
- over 50 projects; from super easy and quick to excitingly challenging.
- collaborations with 14 artists from all over the world
- a separate magazine with all the templates of these artists. With these templates you can easily prepare and cut your own stencils.
- a free personal download with an instruction video and all the digital templates
- all you need to become an easy-screen-printing-pro!

About the author

Bobbinhood was crafted in the hormonal mind of **Barbara de Ru** (who was 6 months pregnant at the time). She used to create women's fashion for her own label, big industry icons and well-known fashion labels. But as she grew older she grew a little wiser and as her belly grew bigger her sense of fairness grew stronger. So Barbara – who's always cooking things up – decided she wanted to raise her girls differently. Going through her own wardrobe she noticed a lot of items were 'fair' already, but in the girls' closet there wasn't much fairness going on.

Barbara and her oldest daughter slayed the fashion industry dragons at home and started to build their own castle – one that is fair, unique, fun and accessible. Something everybody can join in on, and something special to everybody. By making their first piece together, Barbara and her daughter started a story yet to be told.

Text: Barbara de Ru

PREPARE AND CUT YOUR STENCILS

By Lisa Mowbray

STENCILS
 Stencils are a great way to create a design on a surface. They are made of a material that you can cut out a shape from, and then use to apply paint or ink to a surface.

A STRAIGHT LINE
 When cutting a straight line, it's important to use a sharp blade and to cut slowly and steadily. This will ensure that the line is perfectly straight.

A CURVE
 When cutting a curve, it's important to use a sharp blade and to cut slowly and steadily. This will ensure that the curve is perfectly smooth.

SUSHI BY BOBBINHOOD

WHAT YOU'LL LEARN:

- Applying a hot glue gun
- Using a utility knife
- Using a hot glue gun
- Using a utility knife

In this project, you will learn how to create a sushi roll using a hot glue gun and a utility knife. This is a fun and easy project that you can do with your children.

1. Cut out the sushi roll shape from the paper.
 2. Use a hot glue gun to attach the sushi roll to the paper.
 3. Use a utility knife to cut the sushi roll into pieces.
